HKS

American Airlines Center was designed by David M. Schwarz/Architectural Services, Inc. and HKS, Inc. The team combined architecture and technology to give Dallas a beautiful, fan friendly venue with lots of hi-tech touches. From its sweeping signature arches to the retractable seating, American Airlines Center's unique features single it out as the premier sports and entertainment venue in the country. The venue has four entrances, one on each side of the building for easy access. The north and south ends of the building feature dramatic outdoor balconies at the Platinum Level with spectacular views of downtown looking over the public plaza and cityscape.
