Balfour Beatty, US and Lake|Flato were able to tap into Austin's pull for musicians and artists and create a venue that stays true to Austin's culture. SoHo House offers glamorous settings that inspire creativity. SoHo House's exclusive members-only club includes three levels of hospitality, intimate event spaces, 46 bedrooms, and a roof top club/pool deck allowing members to work, eat, drink and relax.

MAREK's talented team completed and installed the drywall, acoustical ceilings, insulation and blocking throughout the 65,000 sq ft boutique hotel. helping to enhance the Texas-modern vibe with a mix of contemporary Spanish aesthetics.
