A center for educational excellence, Northeast Lakeview College combines innovative classroom instruction with hands-on experience to provide exemplary enrichment opportunities.”

Northeast Lakeview College is the newest addition to the Alamo Community College District. This campus sits on 220 acres and has the capacity to serve 15,000 students. Marek was awarded the first phase of this project which contained seven buildings and 370,000 square feet of facilities. Our craftsmen had the privilege of handling the installation of interior and exterior framing, all gypsum products, as well as acoustical ceilings.

Northeast Lakeview College Campus won a 2010 Award of Excellence in the higher education category in Texas Construction’s Best of Texas Award program.
