**General Contractor:** Beers  
Russell  
Holder

Marek completed the drywall and acoustical ceilings on what is now the 4th tallest building in Atlanta, GA.

The building was completed in 1990 and is the fourth tallest in the city, winning the BOMA Building of the Year Awards in 1991. The floor plates were shaped and articulating granite facade, the architects were able to create a single tower that reads as two twin towers accentuating the vertical height of the building. Each tower is crowned with a temple like structure. The entrance to the building is through a soaring, skylight atrium lobby featuring
