# Resetting Your Password in MyMAREK

Set Preferences

To reset your password, click on your initials in the upper right hand corner of the app on a desktop or tablet. Select "Set Preferences" from the drop down menu.

Password

Once inside the "Set Preferences" homepage, select "Password."

Change Password and Save

Enter your current password in the top box. Then, type your new desired password in the bottom two boxes. Click "Save and Close" to submit your new password.
